Lionel Sisso

FULL-STACK DEVELOPER · SOFTWARE ARCHITECT

SERVICE 003 — CRM-ERP-SAAS-DEVELOPMENT · FROM US$90

BENIN (GMT+1) · WORLDWIDE · ENGLISH & FRANÇAIS

SERVICES · SERVICE 003

Custom CRM, ERP & SaaS platforms, *source code included.*

Software that runs the way your business actually works: CRM, lightweight ERP or a multi-tenant SaaS platform — secure auth, roles, dashboards and payments (Stripe · Mobile Money). Built on the stacks I ship in production: Laravel · Next.js · PostgreSQL · MySQL.

BASIC

Starter MVP

US$ 90

- 7-day delivery
- 2 revisions

1 working core module, live and branded — your business from day one

- — Secure login, signup & roles
- — 1 core module: leads, inventory or invoicing
- — Database setup (PostgreSQL / MySQL)
- — Up to 4 pages, responsive UI
- — Deployed live + source code

STANDARD

Business Suite

US$ 200

- 14-day delivery
- 4 revisions

Modules that talk to each other — a mini-ERP your team actually uses

- — Everything in Basic
- — 3–4 modules working together
- — Role-based access: admin / staff
- — Analytics dashboard + CSV import/export
- — Email notifications

MOST COMPLETE

PREMIUM

Full SaaS Platform

US$ 500

- 30-day delivery
- unlimited revisions

Production-grade SaaS or full ERP — launch-ready, not a demo

- — Everything in Standard
- — Up to 6 modules + cross-module workflows
- — Payments & subscriptions (Stripe, Mobile Money)
- — Reports, audit trail & API
- — 30-day post-launch support

REAL DELIVERY — LIVE SAMPLES

HOW IT WORKS

1 BRIEF — you tell me your process and who uses the system

2 MAP — your process becomes a clean data model

3 BUILD — modules, auth, roles, payments, dashboards

4 LAUNCH — deploys live, source handover, support window

you own the source code · clean, documented code · your stack: Laravel or Next.js · Premium: 30-day support
